

Welcome to Edstart Plus

We're looking forward to working with you to streamline your fee process and improve the experience for your school and parent community.

About Edstart Plus

Edstart Plus is a comprehensive fee management service that allows schools to increase payment flexibility for families without the added complexity and workload.

Our team works with each family to tailor a payment schedule that works best for them, while our technology streamlines the entire fee payment and collection process, reducing administrative effort so you can focus on other value-add initiatives.

For Schools

Easy process to get started as your school can continue to issue fee statements or invoices to families as normal and Edstart will provide upfront payments to your school regardless of when families choose to pay

Reduce time and effort on managing the payment process such as direct debit forms, setting up and recalculating payment plans, and following up families that are late with their payments

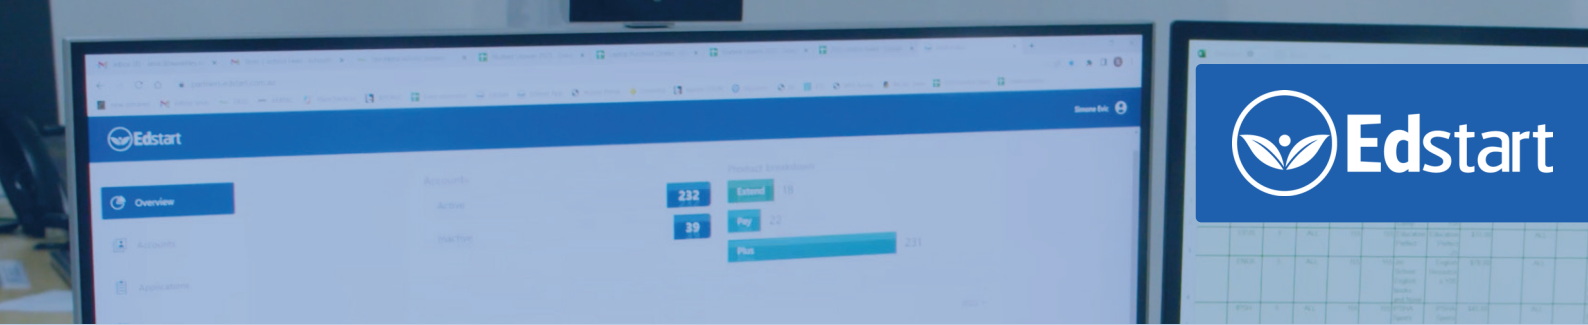

Better visibility of your families via our Partner Portal, allowing you to track fees paid, view upcoming payments and download reports

For Families

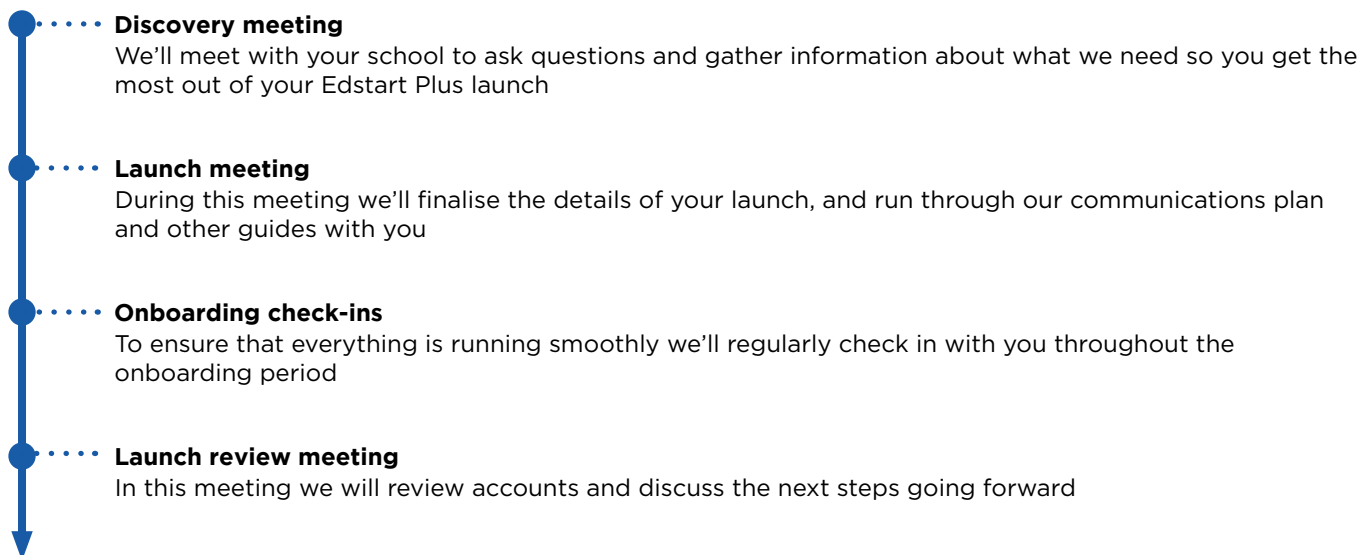

Set up a payment arrangement that best suits their needs, such as the frequency and day of the week they wish to pay, or if they have a more complex situation (e.g. separated family)

Flexibility to adjust payments at any time if there's a change to their family budget

Support from our team of specialists when they require assistance or need extra flexibility with payments

The Edstart Plus onboarding process

About Edstart

Founded by a passionate team of Australian education and finance specialists, Edstart is an education fee management company helping schools improve the payment experience with family care and technology.

Having both grown up with parents that were school teachers, our founders have seen first hand the power of education and have set out to build solutions to support access to learning.

“ I've always wanted to start a business like Edstart to be able to help people to access education, see the impact and how transformative education can be. ”

Jack Stevens
Founder and CEO

“ Education is so powerful and it's one of those things that can change people's lives, so being able to help with this is very gratifying. ”

Jonas Hallerby
Co-founder and CTO
